Lincoln News: Manager Dwyer has announced the selection of Harry Smith as the Lincoln pitcher in Friday's opening game in Denver. Smithy has been displaying rare goods in the practice games and appears to be in better shape than the other twirlers on the Antelope staff, possibly excepting Rip Hagerman. The Grizzlies will have to get to Smithy good and plenty before he will even admit the possibility of defeat. It is this quality that should make Harry Smith a consistent winner this

WIKADAL,  
Secretary and Treasurer.

year. He was a corner last year and this is the season he is due to arrive. Opposed to Smithy will be Hank Olmstead, the Escanaba fiddler, always a tough twirler for any Western league ball club to beat. Out in Denver

the bugs look upon the violinist as their most consistent pitcher, and his record in five seasons with the Bears spells merit from every viewpoint, despite which fact Mr. Olmstead will have something hot on his hands in encountering Kiddo Smith.

Eddie Gagner, despite his brilliant shortstopping, seems to be unable to pump any ginger into that Indianapolis gang. Gag's individual record for one day was ten acceptances, one boot and no blows. Gag hung up a glittering record in the three games between the Hoosiers and Chicago Cubs just prior to the A. A. Inaugural, handling thirty-one chances without a bobble. The Indianapolis papers already recognize the former Lincoln shortstopper as the class of the A. A. in that position.

## Forty Acres of Good Orchard Land

We have 19 forties of land in Scott Co., Arkansas, that we are going to sell in 40-acre tracts. This land is 9 miles from railroad and county seat, about 3 miles from a nice little inland town. The land is all in timber, and the timber is worth almost all we are asking for the land—with the timber thrown in. Scott county took first prize at the World's fair at St. Louis for the best apples, and as an orchard country is can't be beat. The title to these lands are perfect, abstract furnished and warranty deed. We are going to sell this land for cash, and put a price of \$10.00 per acre on it. This means cash, and no monthly payments, just buy it and own it. A year ago we put 10 forties on the market and sold them out in a week, and we are going to see if we can sell these 19 forties out within the next ten days. Call and see us or write for full information on these. No information given over the phone. We have a message from Arkansas for you. It is a little book that is interesting and you will enjoy reading it. Be sure and get a copy.
